

V15 Long Throw line source enclosure

A part of the V series flagships, V5 is a full range line source designed for large-scale applications. V15 is designed on the basis Previous generation of X5. It provides the same pristine, and powerful sound characteristics in a lighter and more flexible enclosure, making it an ideal choice for national and international tours acts, festivals or sports events.

V15 provides a full range bandwidth down to 40Hz enhancing the low-frequency profile, and has a strong output of 148db, making it a record in terms of performance to weight ratio. V15 is designed as a 3-way four driver active loudspeaker. Thanks to VDA Touring Rack for powerful amplification and advanced protection.

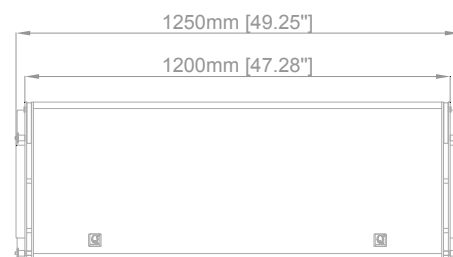

V15 adopts aluminum diffusion and provides 90° horizontal directional mode. Ultra accurate audience coverage and smooth SPL distribution are realized through the combination of angles between 0° ~ 6°.

The rugged V15 enclosure integrates an efficient, captive rigging system fitted with visual safety for secured and effortless deployment. A comprehensive set of rigging and transportation accessories facilitate storage, truck-loading and multiply deployment options.

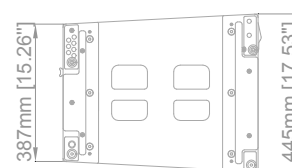

- V series flagships - Heavyweight
- Touring - Fixed installation
- Beyond 50m Long Throw
- VDA18 Controller / VS28 Subwoofer

V15 Technical Specification

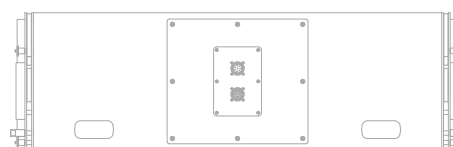

Type	3-way active line source enclosure
Frequency Response	40Hz-20kHz
Amplifier Recommend	VDA18 / VDA12
Preset	[V15] FOH
Horizontal	90°
Angle Increments	0° 1° 2° 3° 4° 5° 6°
Drivers	LF : 2×15" (Neodymium) MF : 4×6.5" (Neodymium) HF : 3×3" (Neodymium)
Handling Power (AES)	LF : 2 x 600W MF : 600W HF : 330W
Maximum Peak SPL	148dB/1m
Nominal Impedance	LF:2 x 8Ω / MF:8Ω / HF:8Ω
Connections	2 x 8-point PA-COM®
Pin Connections	LF1=A/B LF2=C/D MF=E/F HF=G/H
Dimensions (W*H*D)	1200mm*445mm*550mm
Weight	82kg / 180.7lb
Handle	6 ergonomic handles
Antiskid	2 ground runners
Fastener	4 side fastener
Material	Baltic Birch Plywood
Finish	Dark Grey
Front	Polyester powder-coated steel grill
Rigging	Steel
